

# WOOD IS THE POWER OF FURNITURE

How often do you have the opportunity to be in a forest amidst silence filled only with birdsong? Do you know the feeling of all-embracing peace that comes from close contact with nature? Together with Meble Katmandu you can create in your home a substitute of a forest-smelling space...

For years we have been making furniture from a natural raw material, which is pine and oak wood. Everything starts with choosing carefully selected wood of the highest quality, which comes from reliable sources. Both during woodworking and finishing of the complete product we are guided by care and attention to detail. Our range includes universal wooden furniture, which will appeal to lovers of both classical and modern solutions.

Why choose furniture made of natural wood? Mainly because of their unquestionable durability and quality, as well as details visible to the naked eye. On the surface of wooden furniture, the aesthetic grain is visible, and in a room equipped with wood furniture, a pleasant smell emanates. Natural wood is also the best solution for people with allergies - it has antistatic properties, which means that excess dust does not settle on its surface. An additional advantage is the hygrosopicity of natural wood, which allows it to absorb and release moisture from its surroundings. Over the years, natural wood has become more and more noble in appearance, which only confirms that it is the right investment that will decorate your interior for a long time!

# TRULY ECO!

When you choose our furniture, you can be sure that you are making a sustainable and eco-friendly choice. Each piece of furniture we create is not only about attention to detail, but also about the best quality wood. We choose reliable and responsible sources of material, which is confirmed by our certificate of sustainable forest management (FSC). At every stage of production, we use proven materials, and we cover and protect our furniture with ecological paints and water-based varnishes.

The main goal of Meble Katmandu is to produce high quality furniture, which will furnish the interiors of our customers for a long time. We want the furniture produced by us to serve as long as possible, without having to replace it with new ones.

The purchase of low quality products results in their prompt replacement, and frequent purchases have nothing to do with ecology. Bet on quality, durability and the effect of our work. We guarantee that our furniture will make your home even more functional and cosy!

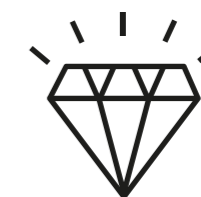

## Delivery and assembly

We are a Polish manufacturer of wooden furniture. We offer delivery of our products throughout Poland. Furniture is sent in packages for self-assembly but it can also be assembled by our employees.

## Only tested materials

We choose only reliable sources of raw materials. Which is evidenced by the certificates that wood from which we make furniture has, such as FSC (certificate of sustainable forest management).

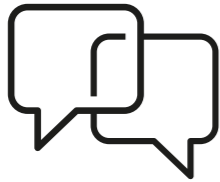

## High standard

We do not accept compromises. From the beginning, our main goal was quality. We stick to this principle, starting with the raw material, through the workmanship and ending with the customer service.

### Team

We achieve our goals by working together. We believe that people are the cornerstone, which allows us to realise the mission of our company.

### Customer satisfaction

We continuously meet the expectations and needs of every customer, we attach great importance to the satisfaction from our services.

### Trust

Honesty, respect and a culture of openness are the most important pillars of our business practices. Mutual support and trust are our core values.

## WHY US?

---

Have you ever wondered why in the era of global brands and large-format markets such shops as Meble Katmandu function? We are often asked what it is like to have a company that manufactures and sells real wooden furniture when you can find big brand shops at every step.

The answer to these questions comes from our history and experience. Industry experience and the knowledge of the market, the prevailing trends and knowledge of the gaps in the market that make people like you look for a shop that meets all requirements became the basis for taking the first step and starting the business. An idea emerged then, which even now has not lost its relevance and is still an important element for us to make our work even more efficient. This idea was to create a place that would meet your needs. A place where you can buy real, wooden furniture without having to wait long.

We created such a place in 2013 - then the Katmandu company was established, which still produces these beautiful pieces of furniture to this day. We are happy when you call the place where you set our furniture your home. We feel honoured that you put your trust in us, because we do it all for you.

## BELLUNO ELEGANTE

WHITE COLOR

The Belluno Elegante collection of white furniture consists of products finished with classic milling cutters and handles in the colour of old silver. The basis of the collection is carefully selected Finnish pine wood, coated with water-based paint in the shade of RAL 9010. Drawers in every piece of our furniture, is equipped with a silent closing system.

# DINING ROOM

The classic Belluno Elegante collection consists of white furniture, which is not dedicated only to one room. Using the furniture from this collection, you will be able to decorate, among others, a dining room or a living room. Our offer includes an extremely practical extendable wooden table made of Finnish pine. The arrangement is, of course, completed with chairs, various models of which can be found in the Belluno Elegante collection.

## BELLUNO ELEGANTE

WHITE & OAK COLOR

Furniture from the above collection is made of Finnish pine. Their surface is covered with a layer of water-based paint with an 85% opacity (RAL 9010). The careful finishing of the furniture deserves special attention - the oak colour top match perfectly with the old gold handles and the drawers are equipped with soft-closing slides.

# FASHIONABLE COLOUR COMBINATIONS

We offer classic chests of drawers in various sizes and variants - with drawers, cabinets, as well as glazed. The diverse form of furniture guarantees the choice of the most practical product for your room. Our chests of drawers combine functionality with interior decoration, thanks to a fashionable combination of white and oak colour. Unique frets and attention to detail in the form of old gold handles give the furniture a unique and exclusive look.

## BELLUNO ELEGANTE

WHITE & WALNUT COLOR

The combination of white with a walnut-coloured top is another version of the Belluno Elegante series made of Finnish pine and coated with water-based paint (RAL 9010 shade) with an 85% opacity. Delicate frets, wood grain and handles in the colour of old gold give the furniture a classic look. The drawers are equipped with a silent closing system.

## BELLUNO ELEGANTE

SAND OF DESERT COLOR

Finnish pine wood in natural colour forms the basis of the above variant of the Belluno Elegante collection. Shelves and drawers of the furniture have been equipped with black matt handles, in addition the system of pull-outs used guarantees silent closing. The surfaces of said furniture were stained and then protected with water based varnish.

Check

# NATURAL PINE

The natural appearance of wood grain, which can be seen on the surface of the furniture, has been accentuated by the staining process. The consistency of the stain allows it to penetrate deep into the structure of the wood, resulting in a clearly visible grain and a natural and noble colour of the wood. The ecological water-based varnish protects the furniture from possible damage in the form of scratches and is also safe for your health.

The natural colour of pine wood and finishing in the form of milling and classic handles refer to the Provencal style.

## MARONE KIDS

Marone Kids Collection offers pine furniture for children's room. Like other furniture in the Marone series, the collection for children is made of pine wood coated with white wax in RAL 9003 shade. Its coverage is 75%, so the grain pattern is visible on the surface of the furniture. The drawers have roller slides.

GRAPHITE COLOR

Graphite version of Marone collection is a combination of modern style with the charm of natural wood. High quality pine wood was covered in graphite water paint with a coverage of 95%, and some elements of the furniture (such as tops, rim and handles) remain in the colour of natural pine. Drawers of furniture are equipped with a system of roller slides.
